The kids' eye view of the world brought to life

touchable earth is the first digital world book for kids where kids are the teachers.

Information is presented first hand in portrait photographs and videos of children aged 7-11 living in each place.

Kids learn important facts such as the geography, capital and the meaning of the flag and anthem. They also gain unique insight into the daily lives of kids across the world. Sections include following a school day, visiting families in their homes, and seeing the games they play for fun. Famous locations are visible in 360 degree panoramas.

touchable earth is available as an app from the Apple App Store. Chapters include Nepal, India, China, Iraqi Kurdistan, South Africa and Romania.

★ Namaste and welcome to Nepal ★

Creating a global classroom

touchable earth aims to improve children's understanding of people and cultures across the world.

As well as building content for the app the project develops a sustainable program for putting internet connected tablets in the hands of kids, with the tools to engage with other kids all over the world.

We have successfully donated tablets and internet to schools in Nepal, India, Romania, South Africa, Iraqi Kurdistan, and Yemen.

The upcoming platform focuses on collaboration e.g. allowing kids to ask questions about other places and local kids answering them.

★ Come learn with me ★

Helping Hands

We are partnered with iEARN.org. iEARN (International Education and Resource Network) is the world's largest non-profit global network that enables teachers and youth to use the Internet and other technologies to collaborate on projects that enhance learning and make a difference in the world.

They operate in over 130 countries. iEARN assists with content creation and logistics of tablet donations and student engagement.

★ I'll teach you about our flag ★

The touchable earth app will

- ▶ **Build** chapters on new places
- ▶ **Develop** a sharing platform
- ▶ **Support** our educational foundation

The touchable earth foundation will

- ▶ **Donate** tablets through educational partners
- ▶ **Connect** classrooms to the Internet
- ▶ **Engage** students in collaborative education

touchable earth was founded in 2011 by **Tudor Clee**, a Barrister and entrepreneur from New Zealand. For enquiries regarding support or partnerships please contact **Tudor Clee** tc@touchableearth.com
